ABOUT

Hi I am Bharathi I'm a mechanical engineering graduate, from my college days onwards I showed intrest in programming later that i taught by myself I complete Full stack projects using JavaScript, React, Express and Mongo dB I always try solve the real world issues using my programming skills I believe coding can help us to approach the problems in a different way, in real life scenario also yes! Coding is a Life Skill!

PROJECTS

React Admin Dashboard

Live Demo: https://main--dreamy-marzipan-3a625a.netlify.app/

- This website contains ecommerce dashboard, pages, apps and charts
- With that it works on pagination, search function and edit options and has a chart with on hover details about the chart

Blog App

Live Demo: https://main--dreamy-marzipan-3a625a.netlify.app/

- This website contains ecommerce dashboard, pages, apps and charts
- With that it works on pagination, search function and edit options and has a chart with on hover details about the chart
